IN STOCK.kravetcarpet

VOLUME II

Flat weaves are the foundation for a casual lifestyle. These beautiful rugs are hand woven on horizontal looms in China and India, available in wool or cotton. Designs include stripes, geometrics and ikats in textures such as soumaks and kilims.

Modern rugs from Kravet Carpet are hand knotted using extraordinary fibers, such as linen, hemp and art silk. Construction includes wool pile and Moroccan Berber, resulting in designs that are lifestyle oriented and fashion forward. High contrast colors, subtle animal skins, large scale damasks, bold ikats and abstract geometrics make this an exciting category for Kravet Carpet.

Tibetan rugs are created in Nepal where Tibetan artisans execute every part of the process entirely by hand. The collection includes an extensive line of area rugs in the best selling colors, constructed in 100 knots from the finest Tibetan wool and Indian silk. These designs are in stock eliminating the waiting time usually associated with hand knotted rugs.

The **Eastern** collection from Kravet Carpet includes new introductions, favorites, and antique reproductions. This vast selection of more than 300 designs is available in rectangles, squares, rounds and runners. All rugs are hand knotted with the finest wools from India, Pakistan and China.

Rugs from the **Kravet Smart** collection are hand knotted and hand loomed in India. Seven subtle designs in forty five luminous colors are created from wool and viscose. The effect is sophisticated and stylish, providing the perfect foundation for any interior.

Kravet Smart Naturals offers a selection of sisal area rugs, elegantly finished with cotton binding. Rugs, which are machine woven in China, feature two patterns in seven popular colors, all of which are in stock with sizes ranging from 4x6 to 12x15.

WINDSOR SMITH

How do I create a feeling of warmth, earthiness and whimsy in an interior? How do I play with bold contrasts of black and neutrals, as well as gentle hues in modern but still cozy ways? And how can I combine it all with friendly optimism? These are the questions I ask myself when sitting down to design for Kravet, and this new collection of rugs holds my answers.

Subtle equine and Indian/African elements inspire the patterns. They transfer their ethnic appeal with casual sophistication. Colorations inform the interior but do not dictate it. Flat weaves meld with any interior at an approachable price point. When I combined all the elements, I was delighted with what emerged: rugs that live beautifully in rooms today, and will continue to live in rooms of the next generations for many tomorrows.
