### TREND WATCH

1. Simple circular cutouts define Kravet Couture's Reckless Suede fabric, which is shown here as drapery in the Truffle colorway. 2. Shower floors can be enhanced with Watermark Designs' grid drain covers. Available in six patterns, the covers are held in place with magnets for a seamless appearance. 3. A Modern take on floral designs inspired Creation Baumann's Rosalie fabric. The woolen textile, which is suitable for drapery, comes in six colorways and is part of the Inspired Collection. 4. The panels of this custom console are embellished with Lightwave Laser's Sea Fan pattern. 5. Cutouts of butterflies, leaves and birds lend playful flair to the Botanica Rug from Selina Rose. It is crafted of wool felt.
