DAVID HICKS

by Ashley Hicks

“I’m thrilled with my new outdoor fabrics. Living in rural Oxfordshire surrounded by my father’s famous garden, I was determined to see his geometrics outside in his green rooms. As well as the geometrics I’ve added some of my own designs to complement them.”

DAVID EASTON® DESIGNS

“This new collection hints at many design elements that you find in Turkish design today and throughout history. I have changed the colors to make the designs easily flow from interior to exterior spaces. I find that more often, our clients request fabrics that are serviceable for areas with high traffic, and thus require durable, cleanable fabrics. Many outdoor collections seem to point to more traditional outdoor color palettes - with this collection I wanted to apply a more subdued color palette to this versatile offering, something warmer to reflect indoor aesthetics.”
