THE JOFA SINCE 1823

BOHEMIAN WALLPAPERS

Reflecting the gorgeous colors and designs of the related fabric collection, these unique and distinctive wallpapers represent the ultimate in Bohemian charm, creating a spirit of real individuality.

The important move to digitally printed wallpaper provides more definition and clarity to very intricate patterns, while giving greater scope for scale and an infinite degree of color flexibility. Two of these magnificent new designs, Mulberry China with its extraordinary variety of imagery, and the rich saturated color of Lomond enhanced by an iridescent sheen, demonstrates the endless possibilities of this medium. Providing exciting contrasts is the versatile Bohemian Texture and the amazingly realistic Vintage Leather paper and rustic Wood Panel.

The differing but harmonious colors and moods of this inspired collection combine together with Mulberry Home fabrics to produce original and stimulating interiors.
