GENERAL INFORMATION

For Indoor & Outdoor use providing excellent performance PET Yarn (Polyethylene Terephthalate) is a material that is made from recycled plastic bottles. Characteristics include: superb strength, colorfastness and soft texture. It is non-allergenic, has a tolerance for water or moisture and is resistance to staining, fading, mold, mildew, abrasion and sunlight. It is sustainable and recyclable.

This is a handmade product, variations in overall size up to 3%-5% and texture may occur. Weave lines, shear marks, and striations may appear in the carpet or rug. Slight color striations and shading are a normal occurrence. These natural irregularities are inherent characteristics of hand made carpets and are not to be considered manufacturing defects. Shedding and sprouting often occur in handmade floorcoverings. Handspun yarns may sometimes release ends of yarn that "sprout" or "fuzz" above the pile surface. If yarn extends beyond the carpet's surface, simply clip it off so it is level with the surface pile and vacuum. DO NOT PULL loose fibers. Carpet is not guaranteed to match photographic representation. Rugs/samples may oxidize over time. EST2021
