## BAMBOO CHEST

Faux bamboo has been a way to bring warmth and whimsy into the home since it gained popularity in the mid nineteenth century. Our new Bamboo chest is inspired by the finish and carving of our Bamboo Bed, made of poplar and bird's eye maple veneer. Each drawer front features bamboo mouldings, the form of which is echoed in the posts, which terminate in beautifully turned feet.

### DIMENSIONS

46" W x 20" D x 41.5" H
