HARVEST DINING TABLE

Round tables are always the most inviting design: they welcome a small group or a large gathering on equal terms. To make ours even more welcoming, the beautifully hand-carved hardwood top has a cerused oak finish, which was popular throughout the Art Deco era and frequently used by many notable mid-century furniture designers. Wrapped around the middle of the brushed wrought iron base is a gilt rope accent, an element that brings even more warmth to the scene.

DIMENSION

48" diam. x 29"H.
