

# NUVOLE AL TRAMONTO

114/3006

Image represents one roll (4 drops)

Nuvole al Tramonto – Dawn captures the first bright light of early morning. Soft sage clouds rise into puffs of mint and duck-egg before diffusing into a hazy blue spring sky.

Each roll of Nuvole al Tramonto contains four drops that form this enchanting skyscape, creating a total panel measuring 274cm wide and 300cm high. The panel can be used as a captivating feature across one wall or ceiling, or the design can be run side by side using multiple panels to create an immersive, bold interior.

Each panel can be trimmed from the top or bottom for the desired colour focus and to suit unique wall height.
