

# NUVOLE AL TRAMONTO

## 114/3007

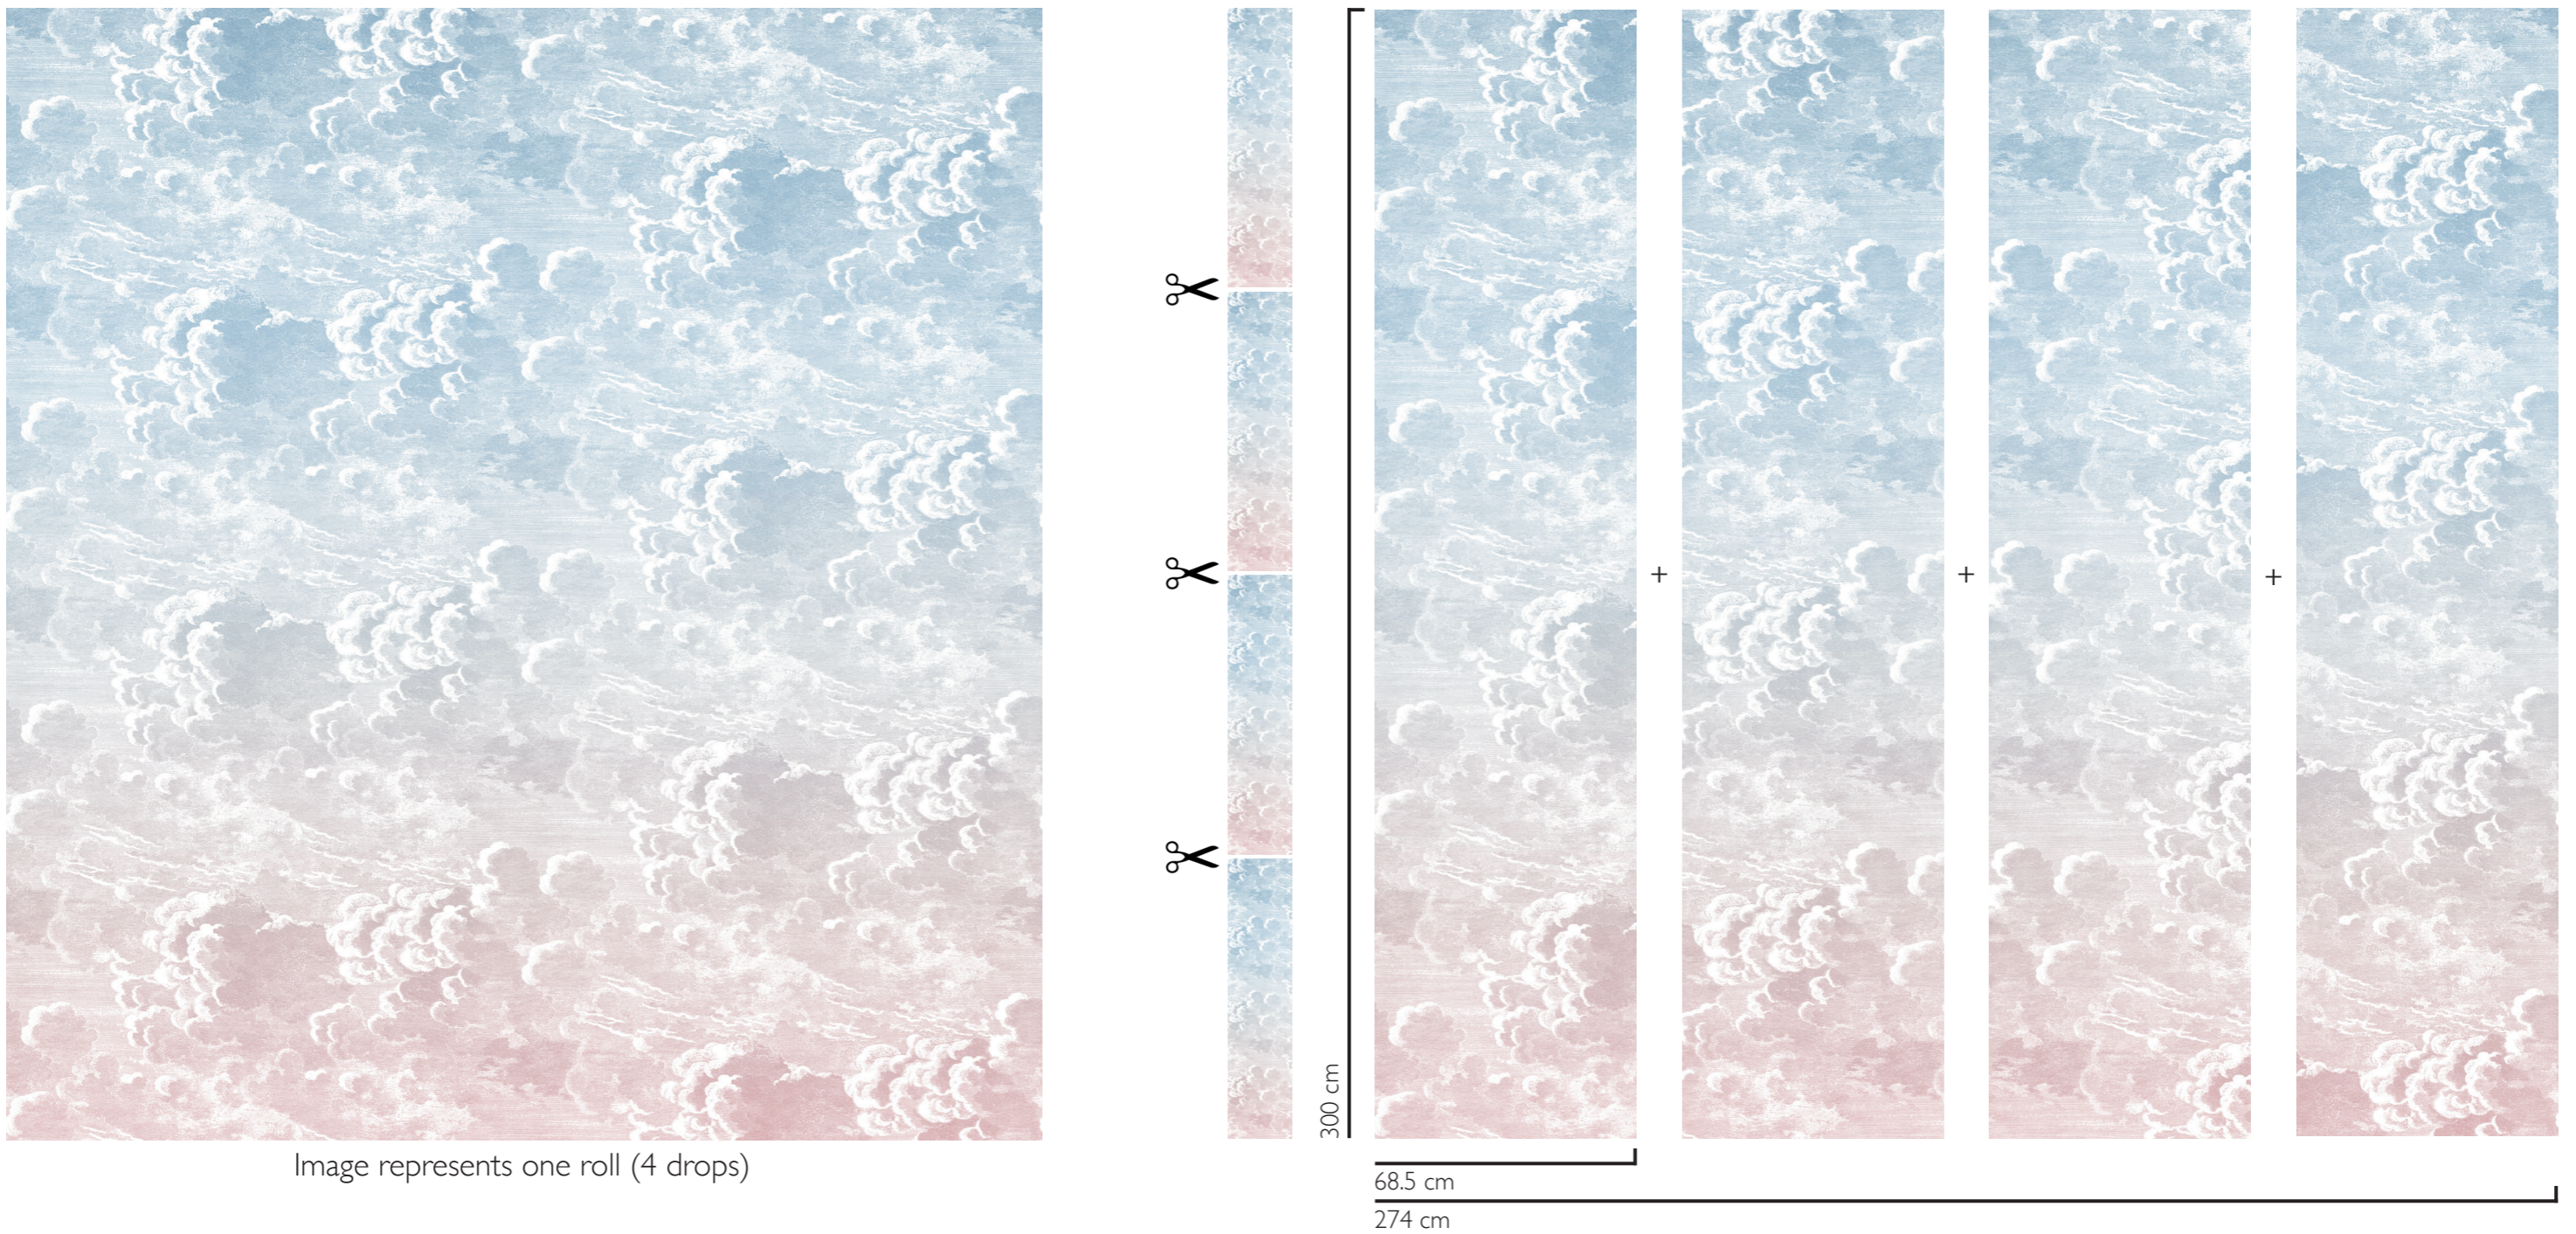

Image represents one roll (4 drops)

Nuvole al Tramonto – Dusk captures the changeful evening sky. Swirls of sunset pink clouds move through muted violet before diffusing into the soft blue of an evening summer sky.

Each roll of Nuvole al Tramonto contains four drops that form this enchanting skyscape, creating a total panel measuring 274cm wide and 300cm high. The panel can be used as a captivating feature across one wall or ceiling, or the design can be run side by side using multiple panels to create an immersive, bold interior.

Each panel can be trimmed from the top or bottom for the desired colour focus and to suit unique wall height.
